Monaco's hidden gem redefines Riviera style

The first hotel to capture the essence of discreet modern luxury in Monte-Carlo resets the standard with its 2018 refurbishment.

Launching in September 2018, this redesigned boutique lifestyle hotel brings location, style, service and ambience together to create an experience unlike any other in Monaco. In an otherwise traditional hospitality landscape, it's a breath of fresh air welcomed by the savvy traveller.

In Fontvieille, Monaco's liveliest neighbourhood, with views out to the Mediterranean Sea, over the Princess Grace Rose Garden, or across the harbour to the old city crowing the Rock of Monaco, it is both central and secluded – the hotel of choice for those in the know.

From entering in to inviting entrance lobby to relaxing in the sea-facing heated outdoor pool, the vibe is one of cool, informal sophistication.

Hotel accommodation

181 upscale Rooms including 28 Suites plus an incredible two-bedroom, three-terrace Apartment each carry a sumptuous new palette of blue and bronze tones. Sleek furnishings and premium amenities ensure that comfort of use matches quality of design. And throughout, rooms are flooded with natural light and look upon stunning views of Monaco and the Riviera.

Bastien Anouil, General Manager, says: *“Our vibrant spirit and seamless service style have been in our DNA since we opened in 2001. That will never change. The new design experience strengthens the unique “Residency by the Riviera” feeling that we are loved for and supports our ambition to be one of the very best lifestyle hotels in Europe.”*

Serviced residences

For those who choose to experience living Riviera style in Monaco every day, our collection of 8 Duplexes apartments, 4 Studios and 1 Penthouse share the same premium amenities, attentive service, and exquisite design.

Our premium 260 sqm two-bedroom penthouse will offer something truly unique within the Principality, where guests can enjoy top luxury finishes and state of the art equipment. A stunning private roof terrace and swimming pool makes it the ultimate Riviera retreat.

Apartments and Penthouse are available for rent from September 2018.

Bar, Lounge & Restaurant

Destinations in their own right, our Bar, Lounge and “Tavolo” Restaurant are further expressions of living Riviera style. The hotel’s mixologists, baristas, sommeliers and chefs are dedicated to crafting delicious experiences.

Guests and locals alike can enjoy the lively bar which pays homage to the classic cocktail culture. Exemplary mixologists create bespoke crafted drinks using only the freshest ingredients.

The à la Carte menu draws on Mediterranean flavours to create delicious dishes crafted from local, responsibly sourced and organic seasonal ingredients. A special menu, perfect for business lunches, is also available. This new concept inspires a relaxed yet sophisticated social dining style that is a unique addition to Monaco’s diverse gastronomic scene.

With its acclaimed outdoor terrace overlooking the Princess Grace Rose Garden, “Tavolo” will offer a new, vibrant and happening dining experience in Monaco. Guests are made to feel that they have found somewhere very special – their Monte-Carlo secret.

Gerard Arazo Riera, Director of Sales and Marketing, explains: *“The Columbus has been totally rebranded, offering a modern design addition to this stunning region’s portfolio. It’s a new wild card for Monaco’s global visitors, travel industry experts and meeting and event specialists.”*

As a place to call home on vacation, a venue for meetings and events, or an exquisite spot for a meal or drinks, Columbus Monte-Carlo is Monaco’s standout hangout.
